# CONSUS-D2™

AUXILIARY HOSE TROLLEY FOR PRECONDITIONED AIR (PCA)

The CONSUS-D2™ Auxiliary Hose Trolley is especially designed for the provision of preconditioned air to any aircraft that needs two inlet connectors. It has been specifically conceived to facilitate ease of operation by staff at the airport platform.

The CONSUS-D2™ Auxiliary Hose Trolley consists of two lightweight 8" hoses of 10', each connected to the double compartment in the trolley.

Indispensable for airports with passenger boarding bridges servicing B747, B777 and A340 type aircrafts.

## THE ADVANTAGES OF THE CONSUS-D2™

- Significantly reduces costs for hose materials
- Saves staffing time and tarmac space
- Designed for ergonomic and effortless handling of the hoses by only one person, making the service faster and safer
- Safer and more user-friendly than any other conventional system by avoiding the need to drag metres of heavy hoses across the tarmac
- Automation systems for extension or collection not required, significantly reducing maintenance costs
